Avera eCARE® ICU uses state-of-the-art telemedicine technology to monitor and manage critically ill patients 24/7.

OUR PARTNERSHIP ALLOWS YOU TO FOCUS ON PATIENT CARE

Vital signs, medications and test results are transmitted to eCARE ICU

- Video technology connects on-site team with eCARE ICU team for an improved model of care for ICU patients
- Decision-support software and remote monitoring technology continuously analyze patients
- eCARE ICU team monitors and intervenes quickly when negative trends are noted

YOUR TEAM CAN RELY ON 24/7 ACCESS TO:

- Continuous monitoring of patient vital statistics
- Sepsis screening and reassessment documentation
- 1.75 fewer days in ICU than predicted
